

Structured financing for your customers

Our softer credit box and hands-on decisions get companies the funding they need to succeed

Equipment & Capital

Growing businesses have a variety of needs, which is why AOF provides both equipment financing and working capital to get projects done.

Vans & Vehicles

AOF also finances business-related vehicles, and companies in eligible states may qualify for a grant that covers 20% of the vehicle cost.

Franchise Fees

Going beyond funding equipment and working capital, AOF can even finance franchise fees and other soft costs for qualified applicants.

Structured solutions

At Accion Opportunity Fund, we know one size doesn't fit all when it comes to growing businesses, and we take a hands-on approach to structure each deal individually.

Our flexible funding solutions can include equipment, working capital and even franchise fees, giving companies the liquidity to maintain seamless operations and actually grow the business.

Key Benefits

Mission-Driven Financing: A softer edge to the credit box with more latitude to look beyond just financials

Quick Decisions: Credit feedback within 24-48 hours, and often same-day approvals

Flexible Terms: 36 to 60-month terms with flexibility for down payments, progress payments or buildouts
